

Vibra-Pro Health

HOME

The Vibra Pro health is one of the few machines which has very low frequencies. This facilitate blood flow to difficult to reach areas in the body, resulting in cleansing and blood circulation.

The Vibra Pro Health directly targets bone tissue making them stronger. Secondly, it stimulates the muscles around the bones providing more support. A great home unit.

ULTRA 6100

PERFORMANCE

It is not uncommon for competitive athletes to set extreme performance goals that inevitably are detrimental to the body due to an irrationally large workload.

The Ultra 6100 is the most widely used for performance enhancement. The Ultra 6100 will help to improve all of the performance indicators: speed, endurance, power and flexibility.
