

Vibra Zone

ENTRY

The Vibra-Zone machine is a great entry level machine that is easy to use because of its basic control functions.

The Vibra-Zone has a classic design. The design has wide handle bars on each side that may be beneficial for users who may require some assistance to get on the machine. This machine is ideal for those on a tight budget.

Farfalla

HOME STUDIO

The Farfalla model is one of our most popular home vibration units in North America and Europe. The unique look was designed by Fitness Italia. The Farfalla is an extremely quiet machine with a high quality Forzana motor.

Wide handles on each side gives great support. No bars coming down from handles means no obstruction for your exercise positions.

VIBRA PRO 5500

COMMERCIAL

The commercially tough Vibra Pro 5500 is now available for everyone to use at home. A wider plate for added amplitude which helps achieve even better and faster results when working on core strength.

The control panel provides all the controls on a logically organized plate with a large display screen. The controls are intuitive and easy to use.
